

Single Window with In-Wall Configuration

Single Window with On-Wall Configuration (coming soon)

Description

LiquidView's Virtual Window enables you to transform any room by changing the view at any time. This is an elegant and impactful solution for spaces that have no windows, an undesirable view, or where lighting is poor. LiquidView Windows were designed in collaboration with renowned innovation firm IDEO, and come with access to LiquidView's ever-growing library of stunning 24-hour views that sync to wherever you are—shot by expert cinematographers from around the world.

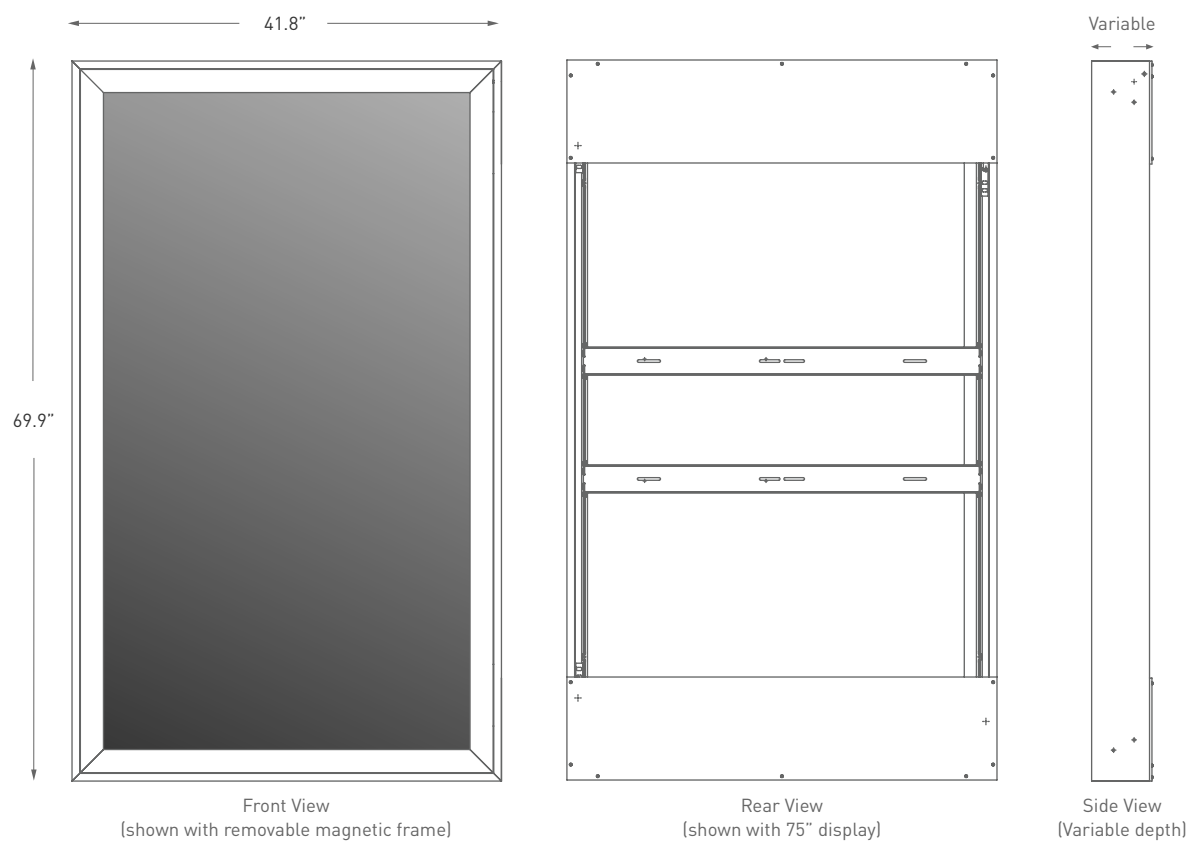

LiquidView Panorama

Key Features

- Transform any room or space with a spectacular view
- Access to growing library of 24-hour views
